Diploma in Frontend Engineering (in view)

**April 2022 – Till date.**

### **Linkedin Learning.**

Programming Foundations: Fundamentals

**Aug 2022.**

### **Linkedin Learning.**

HTML Essential Training

**Aug 2022.**

### **Linkedin Learning.**

CSS Essential Training

**Aug 2022.**

## **PROJECTS**

### **Dribbble**

- This is a website where one can easily get website(s) to emulate but which I actually emulated the website itself.
- I built the website using Vue.js.

### **Rallytrade**

- This is a website of a company which is into forex, trades commodities.
- I emulated the website with the help of HTML and CSS.

### **Game**

- This is a game I built where you guess the number to be displayed on the screen.
- I used HTML, CSS and Javascript to get it done.

### **Youtube**

- This is a commonly used website that I emulated.
- I used HTML and CSS to build it.

### **Quiz**

- This is a quiz that allows you to pick between 3 subjects and the one you prefer to attempt.
- The quiz project also has the filter feature.
- This very project is built on Vue.js.

### Text-keeping-app

- The Text-keeping-app will help users write down a note and keep them for later references.
- This project is built on Vue.js.

### **SKILLS & TECHNOLOGIES**

- **Frontend:** Html, CSS, Javascript, VueJs.
- **Platform:** Netlify, Slack, GitHub, Stackblitz etc.
- **Others:** Communication skills, Team collaboration.
